

House of David Ball Club at Lincoln Park Tonight

CENTRAL OHIO SOFTBALL CROWN AT STAKE HERE SUNDAY

LOCAL SPORTS FANS TO SEE FIRST GAME OF NIGHT BASEBALL

Night Battle Slated To Get Under Way Promptly at 8 P. M.

Marion will enter the field of another night sport tonight when the House of David baseball team chambers into Lincoln park to do battle with a picked set of local district stars. Only this summer, home racing moguls installed lights for night games here. Arrangements have been made, in case high school officials care to use them, for night football and soccer are given the opportunity to witness a game of night baseball.

Promptly at 8 p. m. tonight the umpires will order Play Ball! Norrie Cramer and Ed Johnson will assume the umpiring duties. There will be no preliminary other than the usual warmup of both teams.

It is probable that the House of David will defeat the local side. How bad is another question. No one is likely to care a whole lot who wins the game as long as there is an interesting battle and this is almost a certainty. The majority of the spectators will be at the park to see two things—the first local night game and—the House of David.

This House of David may be an ordinary ball club in some ways but in one way it is far from ordinary. None of the players, except one, shave or cut their hair. The result is that all of them sport flowing beards and long hair. The unusual sight of individuals of this sort playing ball will be the magnet luring numerous fans to the game.

Grover Cleveland Alexander, one time pitching star of the National league, is on the hurlers' roster of the House of David. Alex the Great, as he was once known, will take the mound for at least part of the game tonight although it is not likely he will twist the entire nine frames. Whoever does the mound work, the invaders will be opposed by Harry Ferner, Kenton slab artist who has hurled for several minor league organizations.

JENNER LUNCHESES TO MEET GOPHER NINE; TWIN BILL ON SKED

Nevada, Marion Teams in Lid-Lifter Prior to Title Struggle.

Marion will be fighting for a position in the recreation baseball league of central Ohio on Sunday, Sept. 13 at Lincoln park when the Jenner Lunches of Marion battle the Linden Gophers of Columbus in the championship game of the central Ohio recreation baseball tournament at Lincoln park. The Gophers have disposed of three tournament foes already, the Nevada Iva Lunches, the Equity Union Creamery of Lima and Delaware. The Jenner Lunches have met and defeated four teams, the Lima Firestone tires, Farmers club Rubber company of Ashland and Beck's Barbers of Findlay.

These two teams, both boasting a brilliant array of star players will clash in the second game of a double bill at 2:30 p. m. Sunday. The Nevada Iva Lunches, who lost a hard fought 4-0 decision to the Gophers in the first game of the tourney and have since been clamoring for another game in Marion, will play in the first game of the double header Sunday. Nevada will oppose a team of Marion stars gathered from the various city leagues.

Since losing to the Gophers in the tourney, Nevada has beaten two of Marion's leading teams and is confident of making it three in a row. Minor Keller, the youthful right hander who baffled the Gophers for five innings with his gunning slants will hurl for Nevada. Keller won a large following among local fans for his work against the Gophers.

The Jenner Lunches will undoubtedly be another of those slip and luck affairs. Both lineups are liberally sprinkled with stars. The Gophers have "Doc" Butch, well-known speedball artist to do the slinging. Mulby, one of the finest backslappers seen here in a long while, will do the catching. Huey in center field and Denny on the initial sack are clever performers. There isn't a weak cog on the team. The team at present has to win but one more game to cop the city championship of Columbus recreation hall.

Jonners Are Strong

The Jenner Lunches can be depended on to give the Gophers a real battle. Francis Bacon at short stop, Alex Kish of Bucyrus at third base, Bob Merchant at first, and Walt Merchant at second make an almost airtight infield. Kish and Bacon in particular are exceptionally hard chubbers. Both have banged out a home run apiece during the tournament.

The outfield will be well patrolled with Applegate, Niemeyer and Whitcun. Niemeyer and Applegate are two of the best outfielders in the city, and Applegate can also take a turn on the mound if it becomes necessary. Kish, the third baseman, is also a pitcher of no mean ability. Bob Gamble will probably do the twirling for the Lunches.

The first of the two games Sunday will commence at 1:30 p. m. The second will start an hour later.

IT'S "NEXT YEAR" NOW AS BRUINS SKID DOWNWARD

CHICAGO, Sept. 10.—Baseball has produced many guest contracts but the brief and stormy managerial career of Rogers Hornsby, boss of the faltering Cubs, today looked like the classic of them all.

Five years ago, the "Rajah" led the St. Louis Cardinals to their first National league championship. He topped that performance by piloting the Cards to the world's championship. As St. Louis toasted him as the "wonder man" of baseball, he lost his job and was traded to the New York Giants.

Today, he is leading the Cubs to one of their poorest campaigns in years. Trouble appears to be dogging his footsteps everywhere. Owner William Wrigley, Jr., who dismissed former Manager Joe McCarthy toward the end of the 1930 campaign because he failed to win the pennant and the world's series in 1929 intimated that the "Rajah" is here to stay, as manager.

The case of Hack Wilson, baseball's man of tragedy for 1931, has been the most distressing to Hornsby. The big little man, who batted out 66 home runs last year and broke the National league record for runs batted in, has failed to deliver all season. Whether the reason for his reversal to form was failure to keep in condition, refusal to do his best under Hornsby

WORLD SERIES OFF

There will be no Little World series softball game today. The night baseball game between the House of David and Marion makes it impossible to use the Lincoln park diamond. The Presbyterians will play St. Mary's Friday at 8 p. m. at the Little World series. An Irish victory will end the series, while a win for the Presbyterians will force the series into another game sometime next week.

BUCS IN DRIVE FOR FIRST DIVISION POST

Pirates Down Brooklyn 5-1, Extending Win to Eight in Row.

BY HUGH S. FULLERTON, JR., Associated Press Sports Writer.

Completely out of the pennant race but hopeful of gaining a first division berth in the National league, the Pittsburgh Pirates have begun a brilliant spurt just in time to do some serious damage to the chances of the teams they meet.

Triumphing over Brooklyn yesterday, the Pirates extended their latest winning streak to eight games.

The defeat put Brooklyn 11 games behind the league leading St. Louis Cardinals with only a possible 17 games gain if they win all their remaining games and the Cards lose them all.

Before downing Brooklyn 5 to 1 yesterday on a fine pitching performance by Henry Meine, Pittsburgh had given St. Louis a setback by winning three straight and had taken four carried off the Washington of the American league's only game, downing the Philadelphia Athletics, 2 to 1 in a 10-inning duel without doing any serious damage to the A's pennant prospects. The victory still left the

When Your Stomach Grows With Gas
Make This Test At Once
If you really want quick and lasting freedom from the usual annoyance of all-gas distress, try this NEVER FAILING test today.
At trifling cost, get from Henny & Co. or any good druggist a little Bismarck—either powder or tablets—and take after your next meal. This simple pleasant test can be depended upon to prove its value in less than five minutes. In most cases relief comes instantly.
Bismarck is a harmless, non-toxic form of old-fashioned Magnesia that, when taken after meals, sweetens and neutralizes the dangerous acids that cause most stomach ailments. Ask your druggist for Bismarck—Magnesia—and start the test today!—Adv.

3 CRAWFORD COUNTY MEN HELD IN RAIDS

Two Fined \$100; Third Pleads Not Guilty to Liquor Charge.

Special to the Star
CRAWFORD, Sept. 10.—Three Crawford county men were arrested on charges of possessing intoxicating liquor after raids made by state and county authorities.

G. A. McCoy and Barney Alt of New Washington were fined \$100 and costs each when they pleaded guilty. Three cases of beer were found at McCoy's home and 48 quarts of beer at the Alt home.

Roy Jones of Crestline pleaded not guilty and was released on \$200 bond for hearing Sept. 15. He said that the half barrel of liquor seized at his business place was near beer.

Raids made yesterday brought the total since March 31 up to 14.

"My sweetheart smokes 'em ..."

"NOW, you know, Bob was raised in a tobacco country. He has worked in two cigarette factories, and I have heard him say all of them are just the same. He says there are a lot of pipes and things like that running through the roofs of the factories and sometimes they look different, but that the way cigarettes are made is all the same.

"Bob says all tobaccos receive the same sort of drying—heat treatment, he called it. In one factory, he says, they may talk about 'baking' the tobaccos and in another they call it another name. He says what they actually do is to 'dry' the tobaccos—reduce the moisture in them—and that the machine that they all use is called a 'Dryer.'

"But when it comes to the quality of tobacco, that's quite a different story, so Bob says; some factories use mild, ripe tobacco, while others think that thick heavy tobacco is good enough. Bob knows tobacco and he tells me that it takes good tobacco—mild and ripe—to make a cigarette as good as CHESTERFIELD.

"You know how it is when a piece of fruit tastes just right—not raw or sharp or too ripe or tasteless—just pleasing and satisfying. Well, that's the way it is with CHESTERFIELD—they just suit me right down to the ground—they satisfy."

— And HIS sweetheart smokes 'em too!

JUDGE FILES REPLY TO OUSTER CHARGES

Mahoning County Jurist Admits Allegations, but Denies Ultimate Motive.

By The Associated Press
TOUNGSTOWN, O., Sept. 13.—Common Pleas Judge David G. Jenkins, in an answer filed to disbarment charges against him today admitted he had permitted the Pennsylvania-Ohio Power & Light company to pay for a vacation trip he took to New Orleans and to pay a bill for medical treatment he obtained at a clinic.

Judge Jenkins, however, asserted that he had no wrong motive in accepting the favors, regarding them merely as evidence of personal friendship on the part of P-O officers. He cited the fact that he was in failing health and was financially embarrassed at the time, and was unable himself to finance a much-needed vacation or to obtain proper medical treatment for his wife.

The answer also says that Judge Jenkins acted in good faith in a land deal, which has caused considerable stir in Mahoning county from time to time. It started several years ago with the purchase of property in Front street by the county for the erection of a bridge. Charges that the property had been bought on tip and sold at a price high above the purchase price by land operators in league with county officials were made at the time and since.

The hearing of disbarment proceedings against Judge Jenkins and Attorney A. M. Henderson were completed yesterday. Judge Lyons was charged with failing to pay a \$500 light bill, allowing Henderson to endorse and pay \$3,500 worth of notes and appointing Henderson to a lucrative receivership position. Judge Lyons admitted the charges, but said they had not swayed him in making decisions.

Fowler, who recently wed Mrs. Anne U. "Bill" Stillman who managed her romance with so much secrecy that the news came as a distinct surprise.

The first that her relatives knew of the engagement apparently was when a letter came to the home of her mother, Mrs. Edith Rockefeller McCormick, announcing her intentions. This was made public late yesterday by Mrs. McCormick's secretary.

Powell McCormick said he was not acquainted with Hubbard, but that he was very happy over the news of his sister's romance. Harold McCormick, her father, who is an executive of the International Harvester company, founded by her grandfather, Cyrus McCormick, could not be reached here for comment.

Mrs. McCormick, who is 29, is the eldest daughter of Mr. and Mrs. McCormick, who were divorced in 1921.

TEXARKANA, Ark.—S. M. Ragland has sold tobacco for the last 35 years. During the last few years he has sold an average of 15,000,000 cigarettes a year and 4,000,000 cigars. But that is not the record Ragland claims is hard to beat. The record he points to is that he has never smoked a cigar, or cigarette, in his life.

CONTINUE HUNT FOR MOYLE AND ALLEN

Pacific Coast Guard Ships Make Seemingly Futile Quest for Aviators.

Continued from Page One

Thomas Ash Jr., world aviator, who gave up an attempt to fly the Moyle-Allyn monoplane, C. P. the route this summer, expressed the opinion the aviators were lost somewhere off the Albatross. Ash arrived here yesterday from the Orient as a member of the crew of the liner President Madison.

"I believe the motor blew up before they reached Dutch Harbor, Alaska," said Ash. "They had equipped the plane with a super charger which stepped up the motor from 225 to 300 horsepower and I believe the strain was too much."

Ash who plans another attempt to span the Pacific in a new plane next May, said the left wing of the Moyle-Allyn ship was warped and "you had to fight it all the time." He said the ship used about 25 gallons of fuel an hour, instead of 2 as estimated by Moyle.

One person refused to admit the men were lost. Miss Frances Branson, Riverside, Calif., Moyle's fiancée, who came here to greet him when he completed the flight, insisted they would be found.

As she sat in her hotel she fought back tears and bolstered the hopes racing through her mind, often repeating, half to herself, "I know they're safe. I know they'll come in."

PREPARED FOR DEATH
Life Insurance Details Attended to Before Start of Flight.

By The Associated Press
TOKYO, Sept. 13.—Confident as they were of safely reaching Seattle, Don Moyle and Cecil A. Allen, prepared for death before taking off from San Francisco, Japan, for America Tuesday morning.

They left with newspapermen and friends certificates to prove they had taken off on a trans-Pacific flight. These were made with view to simplifying the liquidation of their life insurance policies in the event they should not be heard from again.

Cash, personal possessions and every other article of value were disposed of. They stopped themselves of everything except hope, courage, the clothing they wore and a watch which Allen carried.

Placed in the crystal of the watch was a tiny photograph of Allen and Eileen Miller, Los Angeles aviators who were killed in a plane crash some time ago. Allen has a wife in southern California, but reports have mentioned him as having been engaged to Miss Miller. Subsequent to the take-off Mrs. Allen announced she and Allen had become reconciled.

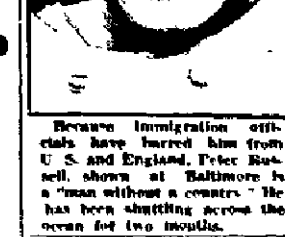

Moyle and Allen were without cash before they left. A diamond ring, a gold ring, the pins, fountain pens, suit cases and clothing were distributed among those who had helped them to make ready for the flight.

Both mother and baby, named Barbara Lee, were "doing nicely," according to hospital attendants.

Mrs. Phyllis Daniels, proud grandmother, is said to be the youngest "grandma" in film circles.

ATTACKS EFFORT TO SLASH FARM TARIFF

Farm Bureau Protests Any Lowering of Protection on Agricultural Products.

By International News Service

WASHINGTON, Sept. 13.—The American Farm Bureau federation has appealed to Republican leaders of congress to block any tampering with the tariff protection on farm products, it was learned today.

The farm organization was particularly vexed over an attempt of Pennsylvania cattle dealers to secure a reduction in the duties on livestock. The federation not only opposes a slash, but has sought to invoke the aid of Republican leaders in preventing even its consideration by the federal tariff commission.

The attitude of the farm leaders cheered Republican leaders, who have been smarting under Democratic attacks on the tariff. It will furnish the Republicans, at least, with some ammunition to return the Democratic assaults.

The request for a lowering of the livestock duties was filed with the commission by the Lancaster, Pa. livestock exchange, which charged the rates were too high. Under the Smoot-Hawley bill, the protection was placed at 2 1/2 cents a pound on cattle up to 700 pounds and 3 cents a pound on cattle weighing over 700 pounds.

"Protectionists demand that in such critical times as our nation now is passing through, that nothing be done which shall impose any undue burden upon domestic producers and that every agency of the government utilize its powers in such manner as to assist domestic industries to recover from economic depression," the farm bureau wrote the commission.

Hope Indicated for Victim of Strange Malady
By The Associated Press
CHICAGO, Sept. 13.—Two small vials of cortin, so valuable that it is priceless, were carefully guarded by physicians who today were making a determined effort to save the life of Mrs. Andrew Nelson, poverty-stricken mother of six children.

The cortin rushed here by air plane yesterday, was only enough to treat the woman, who is suffering from a strange malady known as Addison's disease, for three days. It was furnished by Dr. Frank A. Hartman, of the University of Buffalo. No more could be spared because three of his own patients require daily treatment of it. Additional quantities of the substance must be obtained from other medical schools, Dr. Richard Torpin said.

Cortin, which is extracted from the adrenal glands of cattle was discovered only recently. The glands of 150 cattle are required to manufacture enough for one day's treatment. It is used in the treatment of persons whose adrenal glands are destroyed.

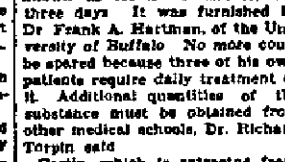

Mrs. Nelson became ill several months ago, and at about the same time, her husband lost his position. The youngest of the children is two years old, the oldest 18.

Medical authorities of Chicago were giving all possible attention to Mrs. Nelson who, they say, should show signs of improvement after about two days administration of cortin.

GIANT CYPRESS Felled
By United Press
NEW ORLEANS, La.—A giant cypress tree said to be 1300 years old, has just been cut in the Atchafalaya river marsh by the Lumber company of Geryville. The tree, containing 16,175 board feet, was found to be sound. The diameter was 82 inches. It will make more than a carload of lumber.

Most first-class building lumber today is better seasoned than that used by our ancestors in spite of all too common complaint that it is not. It pays to take the water out of lumber, because it weighs less and therefore the shipping costs are lower.

WEALTHY YACHT OWNER MISSING

Wife Tells Story of Attack by Gunmen as Police Probe Mystery.

By The Associated Press
STAMFORD, Conn., Sept. 13.—Benjamin P. Collins, 33, wealthy yachtsman was reported missing to local and Nassau county, New York, police after the discovery early today of his five-year-old daughter, Barbara, alone on his cruiser Penguin which was drifting listlessly in Long Island sound. The cruiser was found in the sound about a mile off Lloyd's Point, L. I., without lights, early today.

Mrs. Collins, wife of the yachtsman, was found later aboard an uninhabited yacht in Oyster Bay, Long Island, where she claimed she had been left by two gunmen who tied her husband hand and foot and set him adrift in a small skiff after abandoning her on the yacht.

The gunman then left with the Penguin and their daughter, Barbara, she told police. The child was discovered by a party of New Rochelle yachtsmen, on a fishing trip.

The mother was taken into Oyster Bay from the yacht several hours later when her screams attracted the attention of Captain Howard.

The attention of the New Rochelle men was attracted to the Penguin because it was floating aimlessly with the tide and was without running lights. At the same time they heard a thrashing noise in the water about 100 yards away, as though a swimmer was exhausted. Two of them went out in a skiff to aid the swimmer, but before they could reach the spot the noise stopped.

They could find no trace of a swimmer, but both are positive there was one and that the swimmer drowned.

DOG PROVES TO BE HELPFUL WITNESS
By International News Service
DENVER, Colo.—Jerry, a trained Eskimo dog was chief witness for the defense in the case of George and Lillian St. Leon, recently brought before Police Judge Alva H. Pickens on charges of cruelty to animals.

Someone told State Humane Officer R. O. Beck that Royer, the trainer, and the St. Leon owners of the animal, were beating him in an alley behind a local theater where the dog was appearing.

Jerry was called to the stand "How do they treat you?" his honor asked.

Jerry wagged his tail licked his mistress' hand and looked on the defendants with adoring eyes. Judge Pickens dismissed the charges.

Water Softener.
A water softener may be thought of as a luxury, but is also an extremely satisfactory part of a complete plumbing installation. It works by passing the service water through a mineral which has what the chemists call an affinity for the elements that harden water—the sulfonates of magnesia and lime and the iron.

The water passes through the mineral, leaves these hardening and scale-forming elements behind, and passes on otherwise unchanged and the water is softer, cleaner, and purer than rain water.

PREDICTS FAILURE OF ARMS MEETING

By International News Service
PARIS, Sept. 13.—The world disarmament conference, scheduled at Geneva next February, is already doomed to failure, James G. Gerard, American ambassador to Gerard, declared today in an exclusive interview with International News Service.

Continental Europe regards Soviet Russia as a serious menace to the peace of Europe, and so long as that menace remains the nations will not disarm, he said.

Gerard said the French plan for the League of Nations to secure a supervisory control over the armies of the world would be a logical step toward universal peace, if the League of Nations survive.

"Europe regards Russia as a mysterious menace. When a British firm delivers 30 war tanks to Russia it is not believable that the armed continent will be willing to lay down its arms."

PLAN DEATH FOR MUTINY LEADERS

By The Associated Press
SANTIAGO, Chile, Sept. 13.—The ring-leaders of the naval mutiny were being ferreted out today by a mixed army and navy court with instructions to mete out the death penalty.

Communists and other radicals particularly were sought by a special board that was empowered to extend its activities abroad for trace of foreign influence. It was expected some Chilean embassies would be called on to aid in this work.

Nation's Diet Change Seen as Source of Farm Slump

By International News Service
WASHINGTON—A remarkable change in the choice of food of the American people in the last score of years, which has contributed to the agricultural slump of the nation, is under close study by experts of the department of agriculture.

The World War, because of disturbed conditions throughout the world, also was an important factor in the change of diet of the

people, these studies reveal.

The change from manual labor to machinery, reducing the consumption of heavy foods; the rise of dairy products and popularizing of other new foods, the business depression and the craze for feminine slimness all have had their part.

Change Would Help
Out of the study of experts comes the apparent conclusion that

the quickest way to solve the agricultural problem would be for the people to turn to a beef diet, or to a beef and dairy products diet. Much more land is needed to produce these foods than sugar, wheat and other cereals.

In studying the problem, Dr. O. F. Baker, senior agricultural economist of the department, has found that after the World War there was a notable decline in the use of bread, corn meal and other cereal foods, and an increase in the consumption of milk, meat, sugar, fresh vegetables and fruits.

This trend has been checked by the economic depression. Consumption of meat declined four per cent in 1930 as compared to 1929, and was 12 per cent below 1924. There was a decline of about two or three per cent in milk in 1930, and apparently a sharp decline in the use of sugar.

Use of Grains Decreases
Showing the great change in the country's diet, Dr. Baker says that from 1914 to 1918 the average consumption per person of wheat, corn, oats, rye, buckwheat and barley for human food totaled 310 pounds a year but from 1924 to 1929 it was but 220 pounds.

On the other hand, until recently, the American people were eating a third more sugar and probably a fourth more milk and dairy products, and nearly a fifth more meat and vegetables, and more fruit.

The experts say that it requires three or four acres to produce as much food, measured in calories, of milk or pork, or 12 acres devoted to beef production, as one and one-half acres of wheat made into flour, or one-third of an acre of sugar beets. It is clear, says Dr. Baker, that an increase in the consumption of milk and meat, especially beef, would increase the need for farm land.

Average Low
Based upon a growth of population, after allowing for changes in diet, about 50,000,000 acres of land more should be required to feed the people than was needed during the war. Actually, only 8,000,000 more acres are used.

This is explained through use of the automobile and tractor, which released land used to provide food for animals to provide food for humans, better farming methods, and other causes.

In view of the decline in the birth rate and the policy of immigration restriction, Dr. Baker concludes that it is likely that not much more land than is now used will be needed to feed the American people for an indefinite period.

COUNTY RECEIVES \$10,000 GAS TAX

County Auditor Earl E. Thomas this morning received from the auditor of state a check for \$10,000, a part of the county's share of the gasoline tax. The check boosted the amount of gasoline tax received this year by the county to \$42,000. The check was turned over to R. G. Smallwood, county treasurer, to be placed in the road maintenance and repair fund.

Settlement Ordered.

MARYSVILLE, Sept. 10.—In the suit of the Ohio Farm Bureau Service Co. against the Richwood Farmers Exchange, the court held the receiver's report was correct and ordered \$100 paid to the attorneys, \$125 to the receiver for compensation, \$42.36 for court costs and \$17 for rent and the balance of the money to be distributed among the creditors, after which the receiver will be discharged.

Why should ladies retire at the end of the dinner, when they can stay and smoke?

Gets \$25 Fine.

J. W. Fulla, 24, of 320 Waterloo street, arrested early yesterday morning on a charge of driving an automobile with improper license plates, was fined \$25 and costs by Municipal Judge W. T. Martin yesterday afternoon when he pleaded guilty to the charge.

AWARDED JUDGMENT

MARYSVILLE, Sept. 10.—Judgment has been given in common pleas court in favor of Edward H. Thompson against L. E. Althaus. The amount claimed is \$304.86 with interest and costs. Robert F. Allen of Richwood is attorney for the plaintiff.

One should never make the grand mistake of thinking he is a humorist because his after-dinner speech gets laughter.

It's Up to the Veterans.

The drive for full payment of the soldiers' bonuses, threatened as soon as the bill permitting borrowing up to fifty percent of the mature value of the service certificates had been passed over President Hoover's veto last February, is in full swing. Veterans of Foreign Wars have voted to put all the pressure at their command on congress, and similar action is indicated when the American Legion meets in Detroit September 21.

The ex-soldiers know the strength of their vote. They know that there is an insufficient number of legislators to stop them, if they continue in their apparent determination to raid the federal treasury the second time in the short space of a year. The organized minority of ex-soldiers is the most powerful political bloc in the nation. It can do practically anything that it wills to do in the way of forcing the passage of legislation favorable to it.

Tremendous pressure was brought to bear on legislators when the bill increasing borrowing limits on the bonuses was under consideration last winter. Tremendous benefits would follow its passage, it was promised. But the real driving force of the movement that added in re-payment of the bill above President Hoover's veto was the thirty-veiled threat that unless congress wanted to play along with the soldier veto it could not play along without it—and then see what might happen.

Congress gave in, just as it always has in similar situations, and just as it always will. Minority rule is inflicted on the majority because the minority happens to be organized and articulate. No one claims that the majority which played along with the soldier veto last February really was convinced of the rightness of its action. Only about thirty-two percent of the \$35,349,994 distributed under the act up to August 24 went to unemployed or needy veterans; the rest went for votes, at public expense.

Full payment of the soldiers' bonuses would cost the government in excess of \$2,100,000,000 additional. Representative Royal C. Johnson, chairman of the house committee on veterans' legislation, estimates that complete congressional capitulation to a demand for full payment would make it necessary for the treasury to float a bond issue which, together with those already offered, would aggregate \$5,000,000,000. There are many veterans already objecting to the huge weight of bonded indebtedness being carried by the United States. Children of veterans will have to pay the obligations bequeathed them.

The decision as to what will be done about paying the bonus rests with the veterans. It is reported that a clear majority of the state delegations to the coming American Legion convention has been instructed to vote for redemption of service certificates. A conservative element in the legion will try to prevent this forecast from coming true, but the prospect of success is far from bright.

It's up to the rank and file of the American Legion, the rank and file of the organized soldier vote in the United States. They have the power further to complicate the disarranged finances of the country or to help steady the treasury and the entire economic structure of the nation.

Speaking over the air, Tuesday, William H. Grady, an American engineer just back from Russia, where he was employed by the Russian coal trust, declared that thirty per cent of the Russian workmen and peasants are out of employment. Evidently the Russian story of full-time employment for all in Russia is cut off the same cloth as other stories sent out by the bolshevik government.

The first day of the present month postal savings deposits reached the all-time high record of \$408,217,703, which affords another light on the slowness of the return of business conditions to normal. The savings habit is at the peak all up and down the line.

Arthur L. Waugh, of New York City, has secured a Reno divorce from Evelyn von Hartmann Waugh on the strength of her book advocating the elimination of marriage and the adoption of a license system in lieu thereof for the bringing forth of children. It may be said that Evelyn's suggestion is old stuff. The license system has been in vogue over in Europe for hundreds, if not thousands, of years, but it hasn't been notable for the production of children.

Former Senator James A. Reed, of Missouri, blames the economic depression on the Republican administration of the past ten years, the prohibition law and the Republican tariff. It is not a matter of moment, but one can not help but wonder where the Hon. James placed the blame for the Cleveland panic of the early nineties or that well on the way at the close of the Wilson administration?

The Daylight-Saving Hobby.

Daylight-saving time was a war-time hobby. Like sugar eating, flour saving and a great many other emergency measures that assisted the public in the belief that it was helping to win the big fight, it played its part.

In 1919, when the war was over, congress passed over President Wilson's veto a law repealing nationwide daylight saving after that year, but the trick wasn't to be turned so easily. More than 400 cities and villages still are using it this summer, to the confusion of all concerned. The war-time hobby hangs on.

One of the recent objectors to its retention is Dr. C. E. Martin, chief of the weather bureau, who asserts that daylight-saving time is a nuisance and ought to be abolished without delay. "If any one wants to operate on a daylight-saving basis, let him get up and begin work an hour earlier in the morning and quit an hour earlier in the afternoon," is Dr. Martin's curt dismissal of the arguments for daylight-saving time.

In the New England states, the stronghold of the daylight-saving hobby, there is neither plan nor reason in the confused hodge-podge of neighboring communities operating on different times. The same confusion exists, in lesser degree, farther west. Certainly the doubtful little that is gained does not balance the much that is sacrificed annually to the worn out fad of daylight saving. It should be discouraged in every way possible.

PLACING NEW PLANE NOT DIFFICULT TASK

Automatic Control Regarded
as Marked Advance in Air
Travel.

LOS ANGELES, Calif.—A new type of monoplane, especially suited to a flight through dense fog and clouds, was demonstrated here today in a dramatic performance. The plane, which is being developed by the Curtiss-Wright Corp., is being handled by the pilot, Take-off and landings are almost entirely automatic. When the desired altitude is reached, a stabilizing elevator at the tail is set. The rudder is then the only control manipulated.

The wings, of overhead type, are fastened to the fuselage by movable steel tubes which enable the wings to function automatically in different air and weather conditions.

The device keeps the craft level and makes stalling or spinning impossible, since the movable wings respond instantly to changing wind currents, preventing loss of speed.

G. W. Wilson, Curtiss-Wright pilot who developed the new wing, said the automatically controlled craft on the round-trip test flight.

Through the dense fog and clouds the pilot, who "hands off," he explained. He described the sensation of riding through the murky skies blindly, as that of flying upside down. He was confident in the ability of his craft, however, and stuck it out until the plane practically landed itself at the San Francisco flying field.

On the return trip Corbelle carried a passenger. The stabilizer on the elevator again was set and the craft took care of itself on the homeward flight, landing at the starting point without altering its course for fog or cloud banks.

The demonstration of the monoplane was expected to aid aviation engineers in perfecting airplanes for fool proof flying in bad weather. Inclement weather has caused a large per cent of fatal airplane accidents.

New Versions of Eugenie Mode In Millinery

New Hats are arriving almost daily and how charming and youthful they are. Many variations in Eugenie modes as well as the smart derbies. Browns and blacks being the leading shades.

Most Certainly You Can Wear Them

To be sure some of the modes are quite extreme but you'll be thrilled to know how surprisingly easy they are to wear.

There are new versions of the Tricorn with self trim. TURBANS with the new colonial manner—off the face models—smart models with medium brim and graceful uplifts—new derbies that dip gently over the right eye.

TALK ABOUT PRICES Look here!

Just run your eye over the Goodyear Pathfinder prices listed here — and see how little it will cost to re-equip your car with safe new tires.

Did you ever see tire values like that before? No! Because prices have never been so low, nor quality so high.

When you buy Pathfinders you buy great sturdy Supertwist balloons — handsome and strong — long-wearing and trouble-free.

You buy a genuine Goodyear product — made the Goodyear way to Goodyear standards by Goodyear craftsmen.

Don't risk trouble or perhaps life and limb on threadbare tires. One look at these low prices shows you it isn't worth while.

FISH RITES ANNOUNCED HERE

Begin Celebration of Religious and Spiritual New Year Friday.

Polish of Cleveland, students of the Hebrew Union college (synagogue) will conduct the service in the temple room of the National bank building. The New Year's day or Rosh Hashanah marks the beginning of a 10-day period of repentance which culminates with Yom Kippur, the Day of Atonement, the most solemn day in the religious calendar.

It is on Rosh Hashanah that the Jew searches his inmost being, acknowledges his sins within the sanctuary of his heart and rededicates himself anew to the loftiest concepts of his religion and his humanity. Tradition holds that on this day each individual's fate is inscribed in a book to be sealed on the Day of Atonement. Sins between man and God may be forgiven by God but sins against one's fellowman must be mended between man and man.

Within the house of worship special prayers appropriate to the day are recited, a distinctive melody runs through the music of the services and the ram's horn or Shofar is sounded. The Shofar is reminiscent of the covenant between God and Abraham, the call to duty and true piety which brings man near to God.

Unlike the secular New Year, Rosh Hashanah is given over to devotional services, to the repledging of faith, to renewal of friendships and to the universal ideal of the perfectibility of man and the ultimate reward for the righteous of all creeds.

DANDRUFF
get rid of it!

It mars your looks

the picture shows. This woman's locks clean, free from dandruff, a woman's hair should—and can—the same way.
Dandruff can be checked and cured entirely by the frequent, steady use of full strength Listerine. It simply dries it on the scalp full and massaged vigorously. Keep treatment up several days. Within weeks you will be delighted with the results.
If scalp is excessively dry, a little olive oil may be used in connection with the Listerine shampoo, or independent of it. The oil aids in dissolving crusts and scales and helps hair from drying out. Listerine Pharmaceutical Company, St. Louis, Mo.; U. S. A.

O.W.U. Student Expense Cut to Pre-War Levels

Special to The Star
DELAWARE, O., Sept. 10.—Higher education is getting back to pre-war prices at Ohio Wesleyan university. Students desiring to cut costs will find board and room available at the lowest prices in years when they return to the university this fall.

Financial depression has brought the reorganization of the boarding club which died out during years of post-war prosperity. Charles Laughlin, Y. M. C. A. secretary at Ohio Wesleyan, has announced that a boarding club has been organized with rates at \$4.00 a week. Rooms for men students have been arranged for at prices as low as \$1.50 and \$1.75 a week.

The university is starting an experiment this fall with a co-operative house for co-eds where 12 girls will room and board at a total cost of \$5.00 a week and will do much of the necessary work themselves.

Those whose birthday it is are urged to be on guard and cautious in all the affairs of the year, which is beset with the menace of fraud, calumny, treachery and intrigue in business as well as private relations. Precaution, cleverness, vigilance and decisive methods are enjoined. Be careful with all writings or documents. A child born on this day may be emotional, temperamental, crafty, clever in subtle ways, fond of curious and mysterious affairs. His fortune may fluctuate.

Notable negativity: Archbishop John Ireland, orator.

PLEADS NOT GUILTY TO LIQUOR CHARGE

Mrs. Farruggio Denies Possession of Liquor.

Rose Farruggio alias Rose La-presta, at whose home on west Columbia street and store on west Center street, state prohibition men and local police early last week discovered 45 cases of beer, 187 gallons of whiskey and 320 gallons of wine, entered a plea of not guilty to an illegal possession charge when arraigned before Municipal Judge W. R. Martin yesterday. She was released under \$500 bond for a hearing at 3 p. m. Thursday, Sept. 17.

Due to illness, Mrs. Farruggio was not brought to police headquarters at the time of the raid. The hearing at Mrs. Anna Guilizza of Kenton avenue, who was also caught in the series of raids early last week, and who pleaded not guilty to an illegal possession charge, has been continued to Sept. 17 also.

Kitchens Closed.

Canning kitchens which have been operated under the auspices of the Marion County Federation of Women's clubs have been closed it was announced today by Mrs. Louis Uhl, chairman of the home economics department of the federation. The kitchens have been operated since July 25.

Although the United States is the world's greatest consumer of linen goods it imports more than four fifths of its supplies, buying more than \$40,000,000 worth from Europe annually.
